PROFILE

I am an enthusiastic and goal-oriented aspiring Software Developer with practical experience in developing applications using Python, C#, Django, ASP.NET Core, and SQL databases. I enjoy working on backend systems that are maintainable and efficient, with a strong interest in API design and database management. I have a solid foundation in Python, C#, REST APIs, testing fundamentals, and Git. I'm driven to keep learning, solve real problems, and be part of projects that create value.

TECHNICAL SKILLS

Programming:	Python, C Sharp, JavaScript, Java
Web Development:	Django, ASP.NET Core, HTML, CSS
Tools:	GitHub, LaTeX
Core Skills:	Backend Development, RESTful APIs, Database Management, Version Control, Responsive Design
Soft Skills:	Communication, Teamwork, Problem-solving, Adaptability

PROJECTS

Finance Tracker - Personal Finance Management System

[\[GitHub\]](#)

(Django, Python, SQLite, Tailwind CSS)

- Built web application for tracking income, expenses, and financial goals with user authentication
- Implemented CRUD operations for transactions and interactive dashboard with real-time calculations
- Designed responsive UI using Tailwind CSS and Django class-based views with ORM.

Customer Management Web API

[\[GitHub\]](#)

(C#, ASP.NET Core, SQLite)

- Built a RESTful Web API to manage customer records and financial transactions including deposits and withdrawals
- All data exposed in structured JSON format through clean API endpoints with full CRUD functionality.

Todo App - Task Management System

[\[GitHub\]](#)

(Django, Python, SQLite)

- Created task management application with user authentication and full CRUD functionality
- Each user has personalized to-do list with secure data isolation

Ecom Project - Antique Collection

[\[GitHub\]](#)

(HTML, CSS, JavaScript)

- Developed e-commerce website with product catalog, CRUD operations, and shopping cart
- Integrated payment gateway for secure online transactions

Additional Projects:

- **PAG - Password Generator** (*Python*): Secure random password generator with special characters and digits
[\[GitHub\]](#)
- **2048 Game** (*Python, Tkinter*): Classic puzzle game with GUI, tile movement, and score tracking
[\[GitHub\]](#)
- **Snake Game** (*Python, Tkinter*): Traditional game with collision detection and scoring system
[\[GitHub\]](#)

EDUCATION

BSc. CSIT — Samriddhi College, Bhaktapur

- 1st Semester GPA: 3.54
- 2nd Semester GPA: 3.26
- 3rd Semester GPA: 3.40
- 4th Semester GPA: 3.46
- 5th Semester GPA: 3.57
- 6th Semester: Completed
- 7th Semester: Running

+2 Science — Khwopa Secondary School, Bhaktapur
GPA: 3.33

Year: 2078 BS

School — Bal Vikash English Secondary School
GPA: 3.65

Year: 2075 BS

ADDITIONAL INFORMATION

Languages: Nepali, English, Newari

Certifications:

- Completed JavaScript Programming Course – Programiz
- Completed Python Programming Course – Programiz

Experience:

- Part-Time Teacher & Accountant (While pursuing Bachelor's degree)
